

One funded PhD position

Applications are invited for one fully-funded, 4-year PhD position at the University of Galway. The successful candidate will work with Joshua Maglione on a project related to

- Tensor decompositions and isomorphisms (with application to computational algebra), or
- Zeta functions from algebra and their analytic and combinatorial properties.

Both projects cover computational and theoretical topics surrounding problems in algebra and combinatorics.

The successful candidate will enroll in a 4-year structured PhD programme at the University of Galway. The annual (tax-free) stipend for each position is €22,000. The successful applicant will have the opportunity to carry out paid teaching (tutorials, marking) within the School of Mathematical and Statistical Sciences at the University of Galway.

For more information, please contact Joshua Maglione (joshua.maglione@universityofgalway.ie).

How to apply

To apply, please send an email including a cover letter, CV, and contact details of two academic referees to Joshua Maglione (joshua.maglione@universityofgalway.ie)

Please apply by **12 July 2024**. Applications will be reviewed on a rolling basis until the position is filled.
